**4. FIRST AID MEASURES**

- Eye contact:** Check for and remove any contact lenses. Immediately flush eyes with water for 15 minutes, occasionally lifting the upper and lower eyelids. Get medical attention immediately.
- Skin contact:** Flush skin with water for 15 minutes while removing contaminated clothing and shoes. Wash clothing before reuse. Clean shoes thoroughly before reuse. Get medical attention immediately.
- Inhalation:** Move exposed person to fresh air. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. Loosen tight clothing such as a collar, tie, belt or waistband. Get medical attention immediately.
- Ingestion:** Call medical doctor or poison control center immediately. Wash out mouth with water. Do not induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. Get medical attention immediately.

**5. FIRE-FIGHTING MEASURES**

**Flammability of the product:** Flammable

**Extinguishing media:** Use suitable media for surrounding materials. If water use fog spray, avoid direct stream.

**Special exposure hazards:** Avoid contact with strong oxidizers

**Decomposition products:** Decomposition products: carbon dioxide, carbon monoxide, nitrogen oxides

**Special protective equipment for fire-fighters:** Use self-contained breathing apparatus if necessary.

**Explosion hazards:** Not-applicable

**6. ACCIDENTAL RELEASE MEASURES**

**Personal precautions:** Keep unnecessary and unprotected personnel from entering area. Avoid breathing vapors. Provide adequate ventilation. Do not touch or walk through spilled material. Eliminate sources of ignition.

**Environmental precautions:** Avoid dispersal of spilled material, runoff and contact with soil, waterways, drains and sewers. Contain spill area.

**Spill:** Prevent runoff. Contain and collect spillage with absorbent material e.g. sand, earth, vermiculite etc and place in container for disposal according to local regulations (see section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Dilute with water and mop-up or absorb with an inert dry material and place in an appropriate waste disposal container. Avoid contact with strong oxidizers.

**7. HANDLING AND STORAGE**

**Handling:** Avoid breathing vapors or mist. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Store in ventilated areas.

**Storage:** Store in a well-ventilated, cool area. Keep container tightly closed and sealed until ready for use. Storage class, corrosive liquid
