

# Safety Data Sheet

## Potassium Hydroxide Solution, 5%

Revision Date 1/15/15

### 1. PRODUCT AND COMPANY IDENTIFICATION

**Product name:** Potassium Hydroxide, 5%  
**Product code:** 400504

**Supplier:** HealthLink, Inc  
3611 St Johns Bluff Road, Suite 1  
Jacksonville, FL 32224  
800-638-2625  
Monday-Friday: 8:00 -5:00 PM

**Synonym:** None.  
**Material uses:** Laboratory Reagent.  
**Validation date:** 1/15/2015  
**In case of emergency:** 800-424-9300 CHEMTREC (USA)  
24 Hours/Day: 7 Days/Week

### 2. HAZARDS IDENTIFICATION

#### Emergency Overview

**OSHA, GHS Classification:** Acute toxicity, Oral, H301; Skin irritation, H315; Eye irritation, H319

#### GHS Label Elements

Corrosive Liquid, Danger!

Will burn eyes and skin. Causes respiratory tract burns, toxic if swallowed, will cause skin irritation, will cause serious eye irritation, harmful to aquatic life

Globally Harmonized System (GHS).

#### HMIS Classification

Health hazard: 2  
Flammability: 0  
Physical hazards: 0

#### NFPA Rating

Health hazard: 2  
Fire: 0  
Reactivity Hazard: 0

#### Potential Health Effects

Inhalation - May be harmful if inhaled. Causes respiratory tract burns and irritation.

Skin - May be harmful if absorbed through skin. Causes skin burns and irritation.

Eyes - Will burn eyes on contact

Ingestion - Harmful/toxic if swallowed.

### 3. COMPOSITION/INFORMATION ON INGREDIENTS

Name	CAS number	% by weight
Water	7732-18-5	~99
Potassium Hydroxide	1310-58-3	5

#### 4. FIRST AID MEASURES

- Eye contact:** Check for and remove any contact lenses. Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Get medical attention if symptoms occur.
- Skin contact:** In case of contact, flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Wash clothing before reuse. Clean shoes thoroughly before reuse. Get medical attention if symptoms occur.
- Inhalation:** Move exposed person to fresh air. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. Loosen tight clothing such as a collar, tie, belt or waistband. Get medical attention if symptoms occur.
- Ingestion:** Call medical doctor or poison control center immediately. Wash out mouth with water. Do not induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

#### 5. FIRE-FIGHTING MEASURES

- Flammability of the product:** Product is not flammable
- Extinguishing media:** Use an extinguishing agent suitable for the surrounding fire
- Not suitable:** None known.
- Special exposure hazards:** Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
- Hazardous thermal decomposition products:** Oxides of potassium
- Special protective equipment for fire-fighters:** Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

#### 6. ACCIDENTAL RELEASE MEASURES

- Personal precautions:** No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Do not breathe vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment (see Section 8).
- Environmental cautions:** Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
- Spill:** Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see section 1 for emergency contact information and section 13 for waste disposal. Dilute with water and mop up if water-soluble or absorb with an inert dry material and place in an appropriate waste disposal container

#### 7. HANDLING AND STORAGE

- Handling:** Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing vapor or mist. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.
- Storage:** Store in accordance with local regulations. Store in a segregated and approved area. Store in original container, protected from direct sunlight. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage.

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Consult local authorities for acceptable exposure limits. CEIL ACGIH, NIOSH, 2mg/m<sub>3</sub>

<b>Engineering measures:</b>	Use only with adequate ventilation. If user operations generate dust, fumes, gas, vapor or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.
<b>Hygiene measures:</b>	Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
<b>Personal protection</b>	
<b>Respiratory:</b>	Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.
<b>Hands:</b>	Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.
<b>Eyes:</b>	Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists or dusts. Recommended: splash goggles
<b>Skin:</b>	Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. Recommended: lab coat
<b>Environmental exposure controls:</b>	Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

<b>Physical state:</b>	Liquid
<b>Color:</b>	Colorless
<b>Odor:</b>	Odorless.
<b>pH:</b>	>12
<b>Boiling/condensation point:</b>	>100°C (212°F).
<b>Melting/freezing point:</b>	Not available.
<b>Relative density:</b>	~1.07
<b>Vapor pressure:</b>	Not available.
<b>Vapor density:</b>	Not available.
<b>Odor threshold:</b>	Not available.
<b>Evaporation rate:</b>	Not available
<b>VOC :</b>	0 % (w/w)
<b>Solubility:</b>	Complete in water

## 10. STABILITY AND REACTIVITY

<b>Chemical stability:</b>	The product is stable.
<b>Possibility of hazardous reactions:</b>	Under normal conditions of storage and use, hazardous reactions will not occur.
<b>Hazardous polymerization:</b>	Under normal conditions of storage and use, hazardous polymerization will not occur.
<b>Conditions to avoid:</b>	If mixed with strong acids will cause splattering and heat, metals
<b>Hazardous decomposition products:</b>	Under normal conditions of storage and use, hazardous decomposition products should not be produced.

## 11. TOXICOLOGICAL INFORMATION

<b>Carcinogenicity:</b>	No known significant effects
<b>Mutagenicity:</b>	No known significant effects
<b>Teratogenicity:</b>	No known significant effects

Material is destructive to tissue of the mucous membrane and upper respiratory tract including eyes and skin.

## 12. ECOLOGICAL INFORMATION

**Environmental effects:** Not biodegradable as it is not an organic compound capable of decomposition. However, the material would be neutralized by acidity present in the natural environment

**Aquatic Toxicity:** Depending on the volume, may cause shift in water pH outside the range of pH 5 to 10. This would be toxic to aquatic organisms.

## 13. DISPOSAL CONSIDERATIONS

The information presented only applies to the material as supplied. The identification based on characteristic(s) or listing may not apply if the material has been used or otherwise contaminated. It is the responsibility of the waste generator to determine the toxicity and physical properties of the material generated to determine the proper waste identification and disposal methods in compliance with applicable regulations. Disposal should be in accordance with applicable regional, national and local laws and regulations.

## 14. TRANSPORT INFORMATION

DOT: IMDG: IATA: UN1814, Potassium Hydroxide Solution, Class 8, PG II

## 15. REGULATORY INFORMATION

<b>United States</b>	RQ 1000 lbs
<b>OSHA Classification:</b>	Meets criteria for hazardous material as defined by 29 CFR 1910.1200
<b>U.S. Federal regulations:</b>	TSCA Listed on inventory CAS SARA 302 RQ/TPQ 1000lbs/No products were found. SARA 313: No chemicals for this mixture are reportable Clean Air Act: No products were found. Clean Water Act: CAS1310-56-3 is listed, not as a priority or toxic pollutant

<b>DEA List I Chemicals (Precursor Chemicals):</b>	Not listed
<b>DEA List II Chemicals (Essential Chemicals):</b>	Not listed

<b>Massachusetts RTK:</b>	CAS1310-56-3 listed.
<b>New Jersey RTK:</b>	CAS1310-56-3 listed.
<b>Pennsylvania RTK</b>	CAS1310-56-3 listed.
<b>California Prop 65</b>	Not Listed

<b>Canada</b>	
<b>WHMIS (Canada):</b>	This product is listed on the Domestic Substance Act CAS1310-56-3
<b>Canadian lists:</b>	CEPA Toxic substances: Class D1B Poisonous and infectious material- immediate and serious effects- Toxic, E-Corrosive

**CEPA DSL / CEPA NDSL:** All components are listed or exempted.  
*This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations and the MSDS contains all the information required by the Controlled Products Regulations.*

**International regulations**  
**International lists:** **Australia inventory (AICS):** All components are listed or exempted.

**China inventory (IECSC):** Not determined.

**Japan inventory:** All components are listed or exempted.

**Korea inventory:** All components are listed or exempted.

**New Zealand Inventory of Chemicals (NZIoC):** Not determined.

**Philippines inventory (PICCS):** All components are listed or exempted.

## 16. OTHER INFORMATION

National Fire Protection Association (U.S.A.)

### Notice to reader

Healthlink believes this information was obtained from reliable sources, however, the information is provided without any warranty expressed or implied regarding its correctness. Some information presented and conclusions drawn herein are from sources other than direct test data on the substance itself. The conditions or methods of handling, storage, use and disposal of the product are beyond our control and knowledge and for this reason Healthlink does not assume responsibility and expressly disclaims liability for any damages. If the product is used as a component in another product, the MSDS information may not be applicable. The information provided is correct to the best of our knowledge at the date of the MSDS publication.
